

The Voice of Business

**TATIANA MODEEVA,
General Director of Acsour**

Dear colleagues,

Being sure that SPIBA gives an exceptional chance for business community to discuss ideas and exchange opinions I am very glad to take part in the regular professional meetings held by SPIBA. I would be glad if I could more actively participate in the Professional Finance Committee and share my ideas with the colleagues.

For today my professional experience is more than 13 years and including working as a Chief Accountant, Finance Director and General Manager. At the moment I am leading the team of accounting professionals at Acsour as a General Director.

I have graduated from St. Petersburg State University Economic faculty in 1996 and in 2002 I have graduated from the Presidential Program for Managers. I have the Public Accountant Certificate.

If elected to a position of a Co-chair of SPIBA Finance Committee the main goal I see is to organize the meetings and discussions on up-to-date topics and changes made in the accounting and financial sphere with both the representatives from business and government side to have an open dialogue.
